### ANNOUNCEMENT

O prospective buyers of Shorhorns: One of the best bred and most useful Shorthorn offerings of the year is to sell in the sale of Miller Bros., June 22d. I have carefully looked over the consignment and feel confident that the cattle and their breeding will in no way be a disappointment to those in the market for really high-class breeding stock of the better Scotch bred sorts. Those who will study these pedigrees closely cannot help but be impressed and I will say again from an individual standpoint, they will favorably compare with the top consignments that have been sold west of the Mississippi this spring. When I say

this I am taking into account all the great sales that have resulted so successfully this season, and if the right class of cattle are wanted Miller Bros. will have a good sale, too. They have the cattle, and one of the most attractive features is that every female of breeding age will have calf at foot, sired by their great stock bull, Maxwalton Javelin, or will calve to his service.

Maxwalton Javelin is a good bull. His get in this auction will prove he is one of the great sires, and if this sale was not to be held Miller Bros. were planning on bringing out a calf herd this fall that would prove that this statement is not casually made. Avondale bulls are not numerous today and there is no one that would care to discount the efficiency of such blood.

An outstanding prospect in a young bull is found in King Cumberland 4th, a son of King Cumberland 3d, who was selected at a long price to use on the get of Maxwalton Javelin. Look at his pedigree. Note his great list of sires. I do not remember when I have seen a more promising individual. He is a rare show type and his buyer will secure a bull that will put his herd on the map. I am acquainted with every cross in his pedigree on both sire's and dam's side for several generations and it is unnecessary to say that it would be almost an impossibility to find a bull whose pedigree is so rich in the blood that has made history.

These are good cattle. None are better bred. It is an offering that can be fully recommended.

The reason for this sale. Hundreds of Shorthorn breeders know Rudy Miller, the firm's junior member. He is a young man who has made a long list of acquaintances and there are but few better cattle men. I know of no young man with a greater love for the Shorthorn than Rudy Miller, but he feels that his country is calling him for a greater service than that of improving the Shorthorn breed. Rudy Miller has enlisted as a private to defend the honor of his country, and that's the reason why this sale is being held.

Not all the herd is selling, and when his country is victorious Rudy will again be in the ranks, but it will be as a breeder of Shorthorns. Turn out for this auction if you possibly can.

(Signed:) FRANCIS T. MARTIN,

With The Breeders Gazette.

Warranty—We believe every animal to be sold in this sale will prove a breeder under proper care, but should any bull in this offering prove not a breeder after a reasonable trial period, we will replace him to the buyer's satisfaction or refund the purchase price. The open heifers, cows with calves and cows four months along in calf, or longer, are considered breeders, and no further guarantee is given. All other females are guaranteed breeders, providing I am notified within fifty days from date of sale, should they came bulling. Their purchaser is to try them three months, and should hefail to get them in calf, return to me and I will refund purchase price.

Pedigrees—A transfer certificate of registry in the American Shorthorn Herd Book will be furnished for every animal, with the exception of the young calves sold with the dam, and there will be furnished with these a pedigree in the application form ready for registry.

Terms—Cash or short time note bearing 8 per cent interest. Please bring bank reference as all arrangements must be made with the clerk, C. W. Erwin. All stock will be loaded on cars after sale without trouble to the purchaser. Buyer's risk after bid off. All cattle will be tuberculin tested to conform with the different state requirements.
